### *Management comment:*

Revenue from liquid energy terminals for 1-3 months of 2026 amounted to EUR 7.8 million and was lower by 1% compared to the same period in 2025 (EUR 7.9 million). The decrease in revenue was driven by 7% fall in handling volumes.

Revenue from the regulated LNG business segment amounted to EUR 18.7 million in the first quarter of 2026, which increased by 37% compared to the same period in 2025 (EUR 15.0 million). The terminal's regasification and reloading volumes reached 11.4 TWh, which was 2.7 TWh higher than in the same period in 2025 (8.7 TWh).

Revenue from commercial LNG activities in 1–3 months of 2026 amounted to EUR 3.3 million and was higher than in the same period of 2025 (EUR 2.4 million). This growth in revenue was driven by LNG projects abroad, activities in Brazil and Germany, and the development of the Klaipėda LNG value chain.
