

Corporate Governance Report

Coop Pank implements the Corporate Governance Recommendations (hereinafter CGR) approved by the Nasdaq Tallinn Stock Exchange and the Financial Supervision Authority since the listing of Coop Pank AS shares on the Tallinn Stock Exchange main list on 10 December 2019. The report provides an overview of Coop Pank management and compliance with CGR guidelines. Coop Pank AS complies with the recommendations of the Good Corporate Governance, unless otherwise stated in this report.

1. General Meeting

Coop Pank is a public limited company whose management bodies are the General Meeting of Shareholders, the Supervisory Board and the Management Board. The General Meeting is the highest directing body of the Coop Pank, where the shareholders exercise their rights. The competence of the General Meeting is provided by law and the Articles of Association of Coop Pank. For example, the General Meeting is competent to amend the Articles of Association, increase and decrease the share capital, decide on the issue of convertible bonds, elect and extend the term, as well as decide on the early removal of the Supervisory Board members, approve the annual report and distribute the profit, approve the share option programme and appoint and dismiss the auditor.

Every shareholder is entitled to participate in the General Meeting, to speak at the General Meeting on the topics in the agenda and to ask reasonable questions and make proposals. In 2024, no shareholders' questions on agenda topics were raised before the General Meeting. A shareholder may attend the General Meetings and vote at the meeting in person or through a duly authorized representative. The General Meetings are held on business days in Tallinn.

The General Meeting is called by the Management Board. The Annual General Meeting, which approves the annual report, is held at least once a year. The Management Board shall call an Annual General Meeting not later than four months after the end of the financial year. The Management Board shall give the notice of both the Annual and Special General Meetings at least three weeks in advance by publishing the notice of convening the General Meeting through the information system of the Nasdaq Tallinn Stock Exchange as well as on its homepage and at least through one daily national newspaper.

The agenda of the General Meeting, the proposals of the Management Board and the Supervisory Board, the draft resolutions and other relevant materials shall be made available to the shareholders before the General Meeting. In 2025, from the announcement of the General Meeting until the day of the General Meeting, the shareholders had access to the materials and draft resolutions of the General Meeting and other documents required by law on Coop Pank's webpage and at Coop Pank's headquarters on workdays from 09:00-17:00 at Maakri 30, Tallinn. Shareholders are given the opportunity to ask questions on the agenda before the General Meeting.

Following and participation in the General Meeting via means of communication has not been made available (CGC clause 1.3.3), since there has been no demand nor suitable technical solution for that.

In 2025 one General Meetings were held – an Annual General Meeting.

The Annual General Meeting of Shareholders that took place on 16 April 2025 approved the 2024 Annual Report, distributed the profit for the year 2024 and decided to pay dividends. Additionally, the General Meeting approved share option program of the Bank for the period of 2025 – 2026. The General Meeting also decided to exclude the pre-emptive subscription rights of the existing shareholders for the shares issued to option holders in accordance with previous option program.

The General Meeting was held in the Estonian language. The meeting was chaired by Mariann Suik, Head of the Legal Department of Coop Pank, and lawyer Renno Mägi took minutes of the meeting. All Management Board

members of Coop Pank attended the General Meeting as well as Supervisory Board members Rainer Rohtla, Jaan Marjundi, Raul Parusk, Roman Provotorov and Silver Kuus. Also, the auditor of Coop Pank from AS PricewaterhouseCoopers, Jüri Koltsov, attended the meeting.

2. Management Board

2.1. Responsibilities of the Management Board

The Management Board is the governing body of Coop Pank that represents and manages Coop Pank on a daily basis. According to the Articles of Association, any member of the Management Board may represent Coop Pank in all legal acts. The members of the Board are elected and removed by the Supervisory Board. The consent of the Board member is required for their election. According to the Articles of Association of the Bank, the Management Board comprises three to seven members. The term of office of a Management Board member is up to five years. Each member of the Management Board has their own area of responsibility, which is determined by the agreement of the Management Board member. On the basis of the authorisation received from the Supervisory Board, the chairman of the Supervisory Board shall enter into an agreement with the members of the Management Board to perform their duties. According to the restrictions set out in the Credit Institutions Act, until 2021, the members of the Management Board of Coop Pank could not simultaneously participate in the work of the Management Board or Supervisory Board of other companies. Contrary to the above, there was no restriction on work in the management bodies of the Group's companies. From 2021, the members of Coop Pank's Management Board may additionally hold one member of the Management Board and two members of the Supervisory Board, or four members of the Supervisory Board. The positions of head of the group shall be considered as one position.

In accordance with the agreements concluded with the Management Board members, the extension of the term of office of a Management Board member shall be decided 3 months before the expiry of their term of office. The Supervisory Board shall appoint the chairman of the Management Board. The chairman of the Management Board shall organise the work of the Management Board. The Supervisory Board may dismiss a member of the Management Board regardless of the reason. A member of the Management Board may resign from the Management Board regardless of the reason with prior notice to the Supervisory Board. The rights and obligations arising from the agreement, concluded with the member of the Management Board, shall expire in accordance with the agreement.

Persons with sufficient knowledge and experience to participate in the work of Coop Pank's Management Board shall be elected as members of the Management Board. For the selection and evaluation of Coop Pank's Management Board and Supervisory Board members, Coop Pank has adopted the "Suitability assessment policy", which is implemented in conjunction with applicable legislation (the Credit Institutions Act in particular) as well as with the recommendations manual and other relevant guidance documents issued by the Financial Supervision Authority and/or other supervisory agencies.

As of 31.12.2025, the Management Board of the Coop Pank comprised of five members: Arko Kurtmann (chairman), Paavo Truu, Heikko Mäe, Lehar Kütt and Karel Parve. The responsibilities of Management Board members are: Arko Kurtmann – general management, Paavo Truu – financial management, Heikko Mäe – risk management, Lehar Kütt – corporate banking, Karel Parve – retail banking.

Arko Kurtmann graduated with a Master's degree in Economics and Business from the Estonian University of Life Sciences in 2003. Arko Kurtmann has worked for AS LHV Pank as the head of the business banking department and a member of the credit committee in 2012-2019. Arko Kurtmann is a member of the management board of Corby Capital OÜ. Currently, Arko Kurtmann is also a member of the Supervisory Board of Coop Pank subsidiaries, Coop Liising AS and Coop Kindlustusmaakler AS.

Paavo Truu obtained a Bachelor's degree in 1996 from the Faculty of Economics of the University of Tartu, majoring in marketing, finance and banking, and has since participated in several professional further training courses. Paavo Truu worked as a board member and financial director of Coop Eesti Keskühistu from 2018 to 2022. In the years 2013-2018, he was a member of the board of AS Magnum and in the same period was also a member of the supervisory board of several subsidiaries of AS Magnum (Magnum Dental OÜ, AS Magnum Veterinaaria). In 2012-2013, Paavo Truu was the financial director of Alexela Group OÜ and in 2007-2012, a member of the board of Bauhof Grupp. Currently, Paavo Truu is also a member of the supervisory board of Coop Pank's subsidiaries Coop Liising AS and Coop Kindlustusmaakler AS. He is also a member of the management board of Solaris Konsult, the private company he owns.

Heikko Mäe holds a Master of Arts degree in Law from Audentes University (2008). In the period of 2004-2008 Heikko Mäe has worked in AS PricewaterhouseCoopers Advisory as the risk management senior consultant, in 2008-2013 in Eesti Energia AS as Director of the Risk Management and Internal Auditing Unit and in 2013-2015 as Director of Energy Trading in Eesti Energia AS. In the period of 2015-2019 Heikko Mäe worked as the head of AS Magnum Veterinary and in 2016-2020 as Supervisory Board member of TULEVA Fondid AS. Heikko Mäe has been working at the bank as a risk manager since 2019. Currently, Heikko Mäe is also a member of the Supervisory Board of Coop Pank subsidiaries Coop Liising AS and Coop Kindlustusmaakler AS and a member of the board of SIA Prana Property.

Lehar Kütt obtained a higher education degree in Business Administration in 2022 from the Pärnu College of the University of Tartu. In 2007, he earned a Master's degree in Economics from the University of Tartu, and in 2019, a Master's degree in Digital Transformation in Enterprises from Tallinn University of Technology. Lehar Kütt has been Head of the Corporate Finance Business Line at Coop Pank AS since 2021. Previously, among other roles, they served as the Chairman of the Management Board of Estonian Business and Innovation Agency.

Karel Parve holds a Bachelor's degree in International Relations from Bucknell University. Since 2019, he has been working at LHV Pank AS, where he last managed the private banking unit. He has previously worked at Luminor Bank AS and AS Swedbank. Karel Parve is also a member of the Supervisory Board of the Coop Pank subsidiaries Coop Liising AS and Coop Kindlustusmaakler AS.

The Management Board carries out its day-to-day management decisions independently, considering the best interests of the bank and its shareholders, while excluding any personal interests. The members of the Management Board are responsible for the day-to-day management of Coop Pank and for developing and implementing the bank's strategy. The Management Board ensures proper functioning of risk management and internal control considering Coop Pank's area of activity.

2.2. Remuneration principles of managers

The purpose of Coop Pank's remuneration policy is to provide fair, motivating, transparent and legally compliant remuneration. The Supervisory Board has the right to decide on the remuneration of the members of the Management Board. The Remuneration Committee of the bank annually reviews the remuneration principles of the Management Board. When determining the remuneration of a member of the Management Board, the Remuneration Committee shall, in particular, consider the responsibilities of the individual member of the Management Board, their performance, the overall performance of the Management Board, as well as the financial position of the Coop Pank, the current state and future direction of the business in comparison with the corresponding indicators of companies of the same economic sector.

The remuneration of a Management Board member must be such as to motivate the person to act in the best interests of Coop Pank. The basic wage of the Management Board members is agreed in the Management Board member agreement. The remuneration principles of the Management Board members and/or employees exercising internal control and risk management functions must ensure their independence and

objectivity in performing their risk management/internal control tasks. The remuneration of these employees must not depend on the results of the departments controlled and the set objectives must be described at the individual employee level.

Coop Pank applies an annual performance pay, commensurate with achieving the objectives, to all Group employees, plus a long-term option programme for key employees.

Gross remuneration paid to the Management Board members in 2025 in euros:

Gross remuneration paid in 2025	Basic salary	Performance pay	Value of options granted	Total remuneration
Arko Kurtmann	161,205	24,000	92,714	277,919
Paavo Truu	148,000	24,000	92,714	264,714
Heikko Mäe	156,068	24,000	92,714	272,782
Karel Parve	140,000	20,000	77,280	237,280
Lehar Kütt	47,159	0	0	47,159
Margus Rink	202,341	32,000	123,581	357,922

In the event of an extraordinary termination of the Management Board member's agreement by the bank, the Management Board member shall be paid severance pay in the amount of 6 months' remuneration. The severance pay is not payable if the termination is due to significant culpable failure to fulfil official duties or to any other act that seriously damages the bank's reputation. If the term of office of a member of the Management Board is not extended, the Management Board member is entitled to a severance pay in the amount of 3 months' remuneration.

Shares, bonds and share options owned by the Management Board members and their associated persons as at 31.12.2025:

Holder of securities	Shares	Holding	Bonds
Arko Kurtmann (partly by the Corby Capital OÜ)	135,600	0.13%	0
Heikko Mäe	164,070	0.16%	0
Paavo Truu (by the Solaris Konsult OÜ)	76,948	0.07%	100
Lehar Kütt	24,372	0.02%	0

Holder of options	Quantity	Strike price	Subscription term
Arko Kurtmann	47,900	1.526	2026
Heikko Mäe	47,900	1.526	2026
Paavo Truu	41,900	1.526	2026
Margus Rink	71,900	1.526	2026
Arko Kurtmann	86,200	1.875	2027
Heikko Mäe	86,200	1.875	2027
Paavo Truu	86,200	1.875	2027
Karel Parve	42,900	1.875	2027
Margus Rink	120,800	1.875	2027
Arko Kurtmann	83,500	1.053	2028
Heikko Mäe	83,500	1.053	2028
Paavo Truu	83,500	1.053	2028
Karel Parve	69,600	1.053	2028
Margus Rink	111,300	1.053	2028

No significant transactions took place between Coop Pank and the members of the Management Board or persons close to or associated with them in 2025. There are no other benefits and bonuses from Coop Pank to the members of the Management not mentioned in this chapter.

2.3. Conflicts of interest

Coop Pank has established a Group-wide "Policy of Management of Conflicts of Interest", under which members of the Group's corporate bodies, heads of departments and client managers are required to submit and annually update their Declaration of Financial Interests and Credibility. Also, a new declaration must be submitted immediately after a change of significant circumstances which constitute or are likely to give rise to a conflict of interest.

Transactions between the bank and the members of the Management Board or persons close to or associated to them shall be subject to the prior approval of the Supervisory Board, except for transactions made on the basis of market prices within the framework of daily economic activity. In 2025, no such transactions took place.

Management Board members are not members of the Management Board or Supervisory Board of other issuers, except Paavo Truu who is a member of the board of a private limited company he owns. The Management Board members of Coop Pank are also the Supervisory Board members of Coop Pank's subsidiaries; the Management Board member, fulfilling the duties of risk manager, is also a Management Board member of real estate management company established in Latvia which are part of the Group.

The Management Board members have no shareholdings above 5% in other companies who are Group's business partners, suppliers, clients or other related companies.

3. Supervisory Board

The Supervisory Board is Coop Pank's governing body, which plans and organises Coop Pank's management and supervises the activities of the Management Board. The Board determines and periodically reviews Coop Pank's strategy, general business plan, principles of risk management and annual budget. The Supervisory Board comprises five to seven members. The term of office of the Supervisory Board members is up to five years. The members of the Supervisory Board shall elect from among themselves the chairman of the Supervisory Board who shall organise the activities of the Supervisory Board.

The Supervisory Board regularly evaluates the activities of the Management Board by implementing Coop Pank's strategy, as well as evaluates the bank's financial position, risk management systems, compliance with prudential regulations and the lawfulness of the activities of the Management Board.

Persons with sufficient knowledge and experience to participate in the work of the bank's Supervisory Board shall be elected as members of the Supervisory Board. For the selection and evaluation of the bank's Management Board and Supervisory Board members, Coop Pank has adopted a "Suitability assessment policy", which is implemented in conjunction with applicable legislation (the Credit Institutions Act in particular) as well as with the recommendations manual and other relevant guidance documents issued by the Financial Supervision Authority and/or other supervisory agencies.

As at 31.12.2025, the Supervisory Board of Coop Pank comprised of six members and they were Rainer Rohtla (chairman, term 12.04.2026), Viljar Arakas (term 12.04.2026), Jaan Marjundi (term 12.04.2026), Roman Provotorov (term 12.04.2026), Raul Parusk (term 12.04.2026) and Silver Kuus (term 12.04.2026). In the meaning of CGR there are three independent members in Coop Pank's Supervisory Board – Viljar Arakas, Raul Parusk and Silver Kuus.

Rainer Rohtla has obtained higher education in logistics management from Jyväskylä university of Applied Sciences, Finland. Rainer Rohtla has worked in top management positions in various logistics management related international enterprises, latest of them from 2019-2022 as General Manager of Via 3L Group. From 2023 February he acts as chairman of the board of Coop Eesti Keskühistu.

Viljar Arakas obtained a Bachelor's degree in business administration from EBS International University in 2003 and has completed his second Bachelor's degree at Hogeschool NOVI in the Netherlands. Viljar Arakas is a founding member and a member of the Management Board and CEO of EFTEN Capital AS, the largest management company focused on commercial real estate in the Baltic States.

Roman Provotorov obtained a higher education in economics and management from the Estonian Agricultural University (currently Estonian University of Life Sciences). Since 1995, he is a head of Antsla Tarbijate Ühistu (Antsla Consumer Association) and, since 2017, member of the Supervisory Board of Coop Pank AS.

Jaan Marjundi obtained a higher education in process engineering from Tallinn Polytechnical Institute (currently TalTech). For years, he has worked in top management positions of retail businesses. In 2007 - 2025, Jaan Marjundi was chairman of the Management board of Harju Tarbijate Ühistu (Harju Consumer Association) and, since 2017, member of the Supervisory Board of Coop Pank AS.

Raul Parusk obtained Master's degrees in political economy from Moscow National University and in business management from Vienna Business School. He has worked in top management positions in different companies, including credit institutions. From 2017 until August 2021, Raul Parusk was a member of the management boards of Forus Grupp OÜ, Forus Security Eesti AS and Forus Haldus OÜ. From March 2022, Raul Parusk has been a member of the board of Kodea OÜ.

Silver Kuus has obtained a Master's degree in international business management from Estonian Business School. Silver Kuus has worked in top management positions in different financial institutions, the latest of them being manager of corporate banking at Luminor Bank AS from 2017-2019. Currently, he is manager of a business consulting company OÜ Lorikori Capital.

The General Meeting of Shareholders has decided to set the gross monthly remuneration of the members of the Supervisory Board at EUR 1,500, the chairman at EUR 2,000. There is no severance pay or other additional benefits for members of the Supervisory Board.

Gross remuneration paid to the Supervisory Board members in 2025 in euros:

	Gross remuneration paid in 2025
Rainer Rohtla	24,000
Viljar Arakas	18,000
Jaan Marjundi	18,000
Roman Provotorov	18,000
Raul Parusk	18,000
Silver Kuus	18,000

Shares and bonds owned by members of Supervisory Board as of 31.12.2025:

	Shares	Holding	Bonds
Viljar Arakas (by the Miemma Holding OÜ)	38,094	0.04%	114
Jaan Marjundi	83,406	0.08%	11
Roman Provotorov	17,000	0.02%	0
Raul Parusk (by the Sulvanus Invest OÜ)	6,201	0.01%	0

As set out in clause 2.3 of this report, the Supervisory Board members shall also submit a declaration of their financial interests and reliability.

No significant transactions took place between Coop Pank and the members of the Supervisory Board or persons close to or associated with them in 2025. There are no other benefits and bonuses from Coop Pank to the members of the Supervisory Board not mentioned in this chapter.

The Supervisory Board members have no shareholdings above 5% in other companies who are Group's business partners, suppliers, clients or other related companies.

In 2025, fifteen Supervisory Board meetings were held and in addition three Supervisory Board decisions were made without convening a meeting. The members of the Supervisory Board participated in all meetings and votes, except for Viljar Arakas who could not attend the voting held in April and Silver Kuus who could not attend the voting held in August and September

The Supervisory Board has formed three committees: the Audit and Risk Committee, the Nomination Committee and the Remuneration Committee. The Committees act under the supervision of the Supervisory Board as advisory bodies to the Supervisory Board.

3.1. Audit and Risk Committee

The Audit and Risk Committee is an advisory body to the Supervisory Board in the areas of accounting, auditing, risk management, internal control and audit, supervision and budgeting and the legality of activities. The activities of the Audit and Risk Committee are primarily based on the Auditors Activities Act, the Credit Institutions Act and the rules of procedure of the Audit and Risk Committee, approved by the Supervisory Board.

The Audit and Risk Committee is responsible, inter alia, for supervision of the audit process of the annual or consolidated accounts and the independence of the sworn auditor. The Audit and Risk Committee also advises the Supervisory Board and the Management Board on risk management principles and supervises risk management. The Audit and Risk Committee makes proposals to the Supervisory Board for the appointment or removal of the external and internal auditor, as well as for changes in risk management principles, elimination of problems in the organisation and compliance with legal acts. At least once a year, the external auditor shall report to the Audit and Risk Committee on the findings of the audit.

The Audit and Risk Committee shall comprise at least two members, elected by the Supervisory Board. As of 31.12.2025 the Audit and Risk Committee comprised of four members and they were Veiko Haavapuu (chairman), Rainer Rohtla, Silver Kuus and Stan Nahkor. No remuneration is paid to the members of the Audit and Risk Committee who are also members of the Supervisory Board. Remuneration for Veiko Haavapuu and Stan Nahkor is 400 euros per meeting.

3.2. Remuneration Committee

The responsibility of the Remuneration Committee is to evaluate the implementation of the Remuneration Principles approved by Coop Pank's Supervisory Board and their consistency with Coop Pank's business objectives, the impact of the remuneration decisions on meeting the requirements set to Coop Pank's risk management, own funds and liquidity. The Remuneration Committee also supervises the remuneration of members of the Management Board and employees subject to increased requirements.

The Remuneration Committee comprises at least two members who are elected by the Supervisory Board. As of 31.12.2025, the Remuneration Committee comprised of four members and they were Rainer Rohtla (chairman), Jaan Marjundi, Raul Parusk and Irja Rae. No remuneration is paid to the members of the Remuneration Committee who are members of the Supervisory Board. Irja Rae's remuneration is 400 euros per meeting.

3.3. Nomination Committee

Nomination Committee is a working body subordinate to the Coop Pank's Supervisory Board, aimed at ensuring transparency in the selection process and objectivity in the suitability evaluation of Members of the Management and Supervisory board.

The Nomination Committee's responsibilities include, among other things,

- Determining the composition of the management and supervisory board based on the Coop Pank's strategy
- Managing the selection process of management and supervisory board members, assessing the balance of candidates' knowledge, skills, and experience
- Evaluating the education, experience, and professional suitability of management and supervisory board members, as well as their collective ability to act, based on the Coop Pank's needs
- Reviewing the principles for ensuring the diversity of the management and supervisory board and assessing their appropriateness
- Setting target levels for the representation of individuals of less represented genders in the management and supervisory board and preparing an action plan on how to increase the number of such individuals to reach the set target level.

The Nomination Committee comprises at least three members who are elected by the Supervisory Board. As of 31.12.2025, the Nomination Committee comprised of three members and they were Rainer Rohtla (chairman), Viljar Arakas and Silver Kuus. No remuneration is paid to the members of the Nomination Committee.

4. Cooperation between the Management Board and the Supervisory Board

The Management Board and the Supervisory Board cooperate closely to protect the best interests of Coop Pank. The Management Board and the Supervisory Board jointly develop Coop Pank's strategy. The Management Board is invited to attend monthly meetings of the Supervisory Board. The Management Board shall regularly inform the Supervisory Board of any material information regarding the bank's planning and conduct of business, operational risks and management of these risks.

5. Implementation of diversity policy

In accordance with section 4 of article 24² of the Accounting Act, a large undertaking whose securities granting voting rights have been admitted for trading on a regulated securities market of Estonia or another Contracting State shall describe in the corporate governance report the diversity policies carried out in the company's management board and senior management and the results of the implementation thereof during the accounting year. If no diversity policies have been implemented during the accounting year, the reasons for this should be explained in the corporate governance report.

In 2025, the bank did not implement a diversity policy, as it always considers the best interests of the Group in the selection of both executives and employees, considering the candidate's education, skills and previous work experience. At the same time, the Group follows the principle of non-discrimination of candidates on the grounds of gender or other status.

In 2025, a Nomination Committee was established, whose tasks include ensuring the existence of diversity principles as well as setting a target level for increasing the number of underrepresented gender and preparing an action plan for achieving it. The diversity principles will be adopted in 2026.

6. Disclosure of information

Coop Pank shall treat all shareholders equally and shall notify all shareholders equally of material circumstances and from 10.12.2019 considers the rules established for listed companies by providing information.

On the Investor section of Coop Pank's website all documents and information will be made available to shareholders in accordance with the Corporate Governance Recommendations. On its website, Coop Pank shall

publish a financial calendar which includes the dates of publication of the Annual Report and Interim Reports. The published information shall also be made available in English.

7. Financial reporting and audit

Once every year, Coop Pank publishes the Annual Report for the previous year. The Annual Report shall be audited by an external auditor, accepted by the Supervisory Board and approved by the General Meeting.

Members of the Supervisory Board do not sign the Annual Report together with the Management Board members (clause 6.1.1 of CGR). The position of the Supervisory Board on the Annual Report is included in the Supervisory Board's written report, approved with the resolution of the Supervisory Board. The bank submits the Annual Report, signed by the Management Board, to the General Meeting of Shareholders (thus Coop Pank does not comply with the requirement to submit the report signed by the members of the Management and Supervisory Board to the shareholders, clause 6.1.1 of CGR). However, a proposal for approval of the Annual Report, prepared by the Supervisory Board, shall be submitted to the General Meeting.

The auditor shall be appointed by the General Meeting of Shareholders, who shall also determine the auditor's remuneration arrangements. The auditor is appointed to perform a single audit or for a period specified by the General Meeting.

In 2025, the auditor has provided contracted services to companies of the consolidation group, including audits of Annual Reports of Group companies and quarterly reviews and other assurance services subject to obligations under the Credit Institutions Act and the Securities Market Act. Also, the auditor has provided other services permitted pursuant to the Republic of Estonia Auditors Activities Act.

In 2025, the fees paid or payable for the services provided by the auditor amounted to 230 thousand euros.

Sustainability Report

The basis for the preparation of the report

On 5 January 2023, the Corporate Sustainability Reporting Directive (CSRD) entered into force, the purpose of which is to regulate ESG (Environmental, Social, and Governance) reporting and move towards a more sustainable economy. The reporting requirement will be implemented gradually. Coop Pank Group's obligation to submit report prepared in accordance with the European Sustainability Reporting Standards (ESRS) in 2026 (for 2025) has been postponed by two years with the Omnibus I amendment proposal. It is important for us to be in compliance with the sustainability reporting requirements and we have already partly structured this sustainability report according to the structure and general requirements of ESRS.

The sustainability report has been prepared on a consolidated basis. The scope of the consolidation is the same as the scope of the financial report. This sustainability report has not been subject to audit.

Management

Management and supervisory bodies

The company's management report provides an overview of the management of Coop Pank (p. 25) and the members of the Supervisory Board and the Management Board (p.19).

Sustainability management

Since 2017, the Coop Pank group's biggest shareholders have been Coop Investeeringud OÜ and the member cooperatives of Coop Eesti Keskühistu (the retail chain Coop Estonia). The link between retail and banking is reflected in our joint mission statement: 'Driving life forward in every corner of the country'. This has exemplified our operations for the last eight years and determines a key focal point of our sustainability.

Enterprising people and pristine nature are Estonia's greatest assets. As an Estonian bank, we spur Estonian companies on every day and help people realise their dreams. We drive life forward in every corner of the country – urban and rural areas alike – by sticking together and valuing our pristine environment.

Coop Bank's mission to foster life in every corner of Estonia is inherently sustainable, and sustainability topics from different angles have been a focus at Coop Bank for years.

We have made the importance of sustainable operations the focus of attention of both our management and supervisory boards and also hired a full-time employee dedicated to sustainability. In 2023, we created an ESG roadmap, which we update annually and according to which we develop the Group's sustainability consistently and systematically.

The Coop Pank group is increasingly environmentally aware in its own operations and follows its green office principles approved in 2021 and updated in 2025 based on the guidelines issued by the Estonian Association for Environmental Management. In issuing loans to companies, the Coop Pank group takes environmental impact into consideration and looks for opportunities to contribute to companies that reduce negative environmental impact.

The Coop Pank group already joined the Responsible Business Forum in 2020 (renamed in 2025 as the Sustainable Business Estonia KELL) and participates in the Responsible Business Index survey, where it has held the gold level label since 2025. The gold level has been achieved gradually, starting from the bronze level. We are also an active member of the Estonian Banking Association's committee on sustainable banking, contributing to growth in the sustainability of banking operations.

From 2022 to 2024, the Group participated as the first Estonian bank in one of the world's leading environmental reporting projects, CDP (Carbon Disclosure Project). On the CDP platform we transparently

disclosed environmental data. At the first year, the Coop Pank group received the rating B-, i.e. the environmental manager level, which is assigned to companies that have demonstrated good management in the field of environmental impact. In 2023, we received the rating C, i.e. the awareness level. The rating for 2024 was D. At the same time, the volume of disclosed information and the Bank's score increased annually, but CDP rating thresholds became stricter. Therefore, no conclusion can be drawn from the change in the Bank's rating that we have become worse in terms of environmental reporting. We are increasingly disclosing information that overlaps with what is published in the CDP platform and making it more accessible to the wider public. Therefore, we have discontinued double reporting and, starting from 2025, will no longer participate in CDP reporting.

In 2022, the Coop Pank group became a member of the financial initiative of the United Nations Environment Program (UNEP FI or United Nations Environment Program Finance Initiative) and affirmed its commitment to achieving sustainability goals. We signed the principles of responsible banking, which bring the bank's business strategy into line with the goals of the UN sustainable development and the Paris climate agreement, and increase the positive impact on society.

In managing and fostering sustainable development, the group is guided by the UN's 17 sustainable development goals (SDGs). Operating within the banking sector, we are able to contribute either directly or indirectly to the following areas of sustainable development:

SDG 8 – Decent Work and Economic Growth

SDG 13 – Climate Action

SDG 11 – Sustainable Cities and Communities

SDG 16 – Peace, Justice and Strong Institutions

SDG 12 – Responsible Consumption and Production

Climate Change

Transition plan to mitigate climate change

We have not yet developed a transition plan to mitigate climate change, but we have consistently taken steps to reduce our negative impact and increase our positive impact.

In August 2021 we moved our head office into the new, more economical, less energy intensive Skyon building, which was constructed and is being maintained in accordance with the requirements of the LEED certificate. LEED (Leadership in Energy and Environmental Design) is one of the most prevalent green building rating systems in the world. In March 2022, the Skyon office building was awarded the LEED Platinum certificate, which is the highest level.

We have introduced the paper-free management of documents in our everyday work: we enter into agreements with our clients and partners electronically and allow clients to join the bank via a simple online solution that was used by 61.4% of our new clients in 2025 (compared to 58.6% in 2024). In the first half of 2024, the Bank launched a pilot project under which we implemented paperless document management in our customer offices. The pilot project has proven successful, and document management in our offices is now primarily paperless.

In 2022, we signed a cooperation agreement with the technology recycling company GreenDice, which deals with the organisation of the technical circulation of IT equipment and directing it to recycling. The GreenDice recycling system helps to valorise our used IT equipment by finding new users for them or directing unusable equipment to be recycled as raw materials. The usage journey of the devices is fully traceable throughout their entire life cycle. We consider the safe and traceable journey of equipment and the positive social impact that the circulation of our used IT equipment offers to be very important. In 2023, GreenDice directed our equipment (18 desktops and 18 monitors donated) to a school's computer lab and a youth center. In 2024, we donated 135 pieces of equipment, to be given a new life, including to the NGO Women's Support and Information Center. In 2025, we handed over 173 devices.

In 2025, we continued to finance the construction of solar parks and wind turbines, reaching a nominal capacity of 81.3 MW by the end of the year. Financing solar and wind parks accounts for about 3.8% of the portfolio of our corporate financing business line. We continue to contribute to making residential buildings more energy-efficient and also offer more favorable conditions for purchasing properties with a higher energy class.

In 2023, we signed an agreement with the European Energy Efficiency Fund (EEEF) to raise 15 million euros, and in 2025 for 5 million euros, for the purpose of financing energy efficiency and renewable energy projects. In 2024, we financed 5 projects via EEEF and in 2025, one additional project was added. The European Bank for Reconstruction and Development invested €20 million last year in Coop Pank covered bonds to support green financing. The European Investment Bank Group and Coop Pank concluded a securitization transaction under which the Bank can offer up to €249 million in new loans, of which at least €49 million is allocated for promoting gender equality and at least €17 million for projects related to climate action and environmental sustainability.

Management of Impacts, Risks, and Opportunities

In 2024, we conducted a double materiality assessment forming the basis of CSRD sustainability reporting and a UNEP FI impact analysis at Coop Bank simultaneously. The goal of the double materiality assessment was to identify significant impacts, risks, and opportunities.

The double materiality assessment was carried out in accordance with the requirements of the ESRS 1 standard and the recommendations of the EFRAG guidelines (the organization responsible for developing sustainability reporting standards). The results were confirmed in January 2025. Four sustainability aspects were assessed as material:

Climate Change (E1)

Own Workforce (S1)

Consumers and End-users (S4)

Business Ethics (G1)

Under the climate change sustainability aspect, one risk and two opportunities were also assessed as material.

The UNEP FI impact analysis focused on identifying the Bank's most significant positive and negative impacts. As a result of the UNEP FI impact analysis, we identified SDG 8 (Decent Work and Economic Growth) as a positive impact area and SDG 13 (Climate Action) as a negative impact area.

Policies, measures, and objectives related to climate change mitigation and adaptation

The chapter on sustainability management (p. 34) briefly explains the existing policies.

Indicators and objectives

To manage climate-related impacts and risks, we have not yet set targets for reducing greenhouse gases, but we have consistently measured our footprint and made efforts to become more precise in measuring our footprint and assessing the climate impact of our loan portfolio.

Our climate impact

The carbon footprint of the Coop Bank group in 2025 was a total of 212,758 tons of CO₂ equivalent (248,855 in 2024), of which 99.7% (99.8% in 2024) was the impact from the financed emissions (portfolio and leasing) and 0.3% (0.2% in 2024) was impact related to office activities. We have assessed our climate impact since 2021.

To calculate the carbon footprint emission intensity per employee, the office activity carbon footprint was divided by the Group's average number of employees in the previous year (adjusted to full-time equivalents). For calculating emission intensity per net income, net income was used, which corresponds to the net income presented in the Note 4 Operating segments, together with the Bank's total greenhouse gas emissions.

Emission Intensity	2025	2024
Greenhouse Gas (Office Activities) Emission Intensity per Employee (t CO ₂ e/FTE)	1.43	1.27
Greenhouse Gas emission intensity (office operations + financed emissions) per net income (t CO ₂ e/meur)	2,680	3,039

Climate impact from office operations

The climate impact of office operations has been calculated in accordance with the internationally recognized and most widely used greenhouse gas reporting standard, the GHG Protocol (GHG Protocol Corporate Accounting and Reporting Standard). This standard divides emissions into three scopes:

- Scope 1 refers to direct emissions from sources owned or controlled by the Bank.
- Scope 2 refers to indirect emissions resulting from the consumption of purchased electricity, heating, and cooling energy by the Bank.
- Scope 3 consists of 15 different categories across the Bank's entire value chain (including Category 15 – investments, which are separately disclosed in the section 'Financed Emissions').

The assessment of the climate impact from office operations is based on the principle of operational control and uses consumption-based data. To evaluate the impact of employee commuting between home and work, as well as home office activities, an annual survey is conducted among employees.

Greenhouse gas emissions (t CO ₂ e)	2025	2024
Scope 1 emissions	30	37
Scope 2 emissions	129	163
Scope 3 emissions	212,600	248,655
1 Purchased goods and services	25	26
2 Capital goods	219	86
3 Fuel- and energy-related activities	36	60
4 Upstream transportation and distribution	-	-
5 Waste generated in operations	15	1
6 Business travel	26	35
7 Employee commuting	166	144
8 Upstream leased assets	-	-
9 Downstream transportation and distribution	-	-
10 Processing of sold products	-	-
11 Use of sold products	-	-
12 End-of-life treatment of sold products	-	-
13 Downstream leased assets*	25,544	33,183
14 Franchises	-	-
15 Investments (financed emissions)	212,113	248,304
Total	212,758	248,855
Of which office operations emissions	645	551
Of which financed emissions	212,113	248,304

* Under leased assets, we report emissions from the leasing portfolio.

Energy Consumption

Energy consumption represents a significant share of the office operations carbon footprint. Therefore, we disclose in the table below consumption-based information on the amount and type of energy used.

Energy Consumption (MWh)	2025	2024
Renewable electricity (MWh)	389	390
Non-renewable electricity (MWh)	176	181
Heating (MWh)	369	379
Total energy consumption (MWh)	934	950

Financed emissions

Since 2021, we have performed an assessment of the carbon footprint of our organization and of loan portfolio (financed emissions) in accordance with the GHG Protocol. The climate impact of the Coop Pank group's portfolio is calculated based on the standard "The Global GHG Accounting & Reporting Standard for the Financial Industry" of the Partnership for Carbon Accounting Financial (PCAF). The PCAF standard is the only sector-specific standard that allows financial institutions to estimate and disclose greenhouse gas emissions from loans and investments.

The PCAF standard is in line with the GHG Protocol standard and complements the GHG Protocol Corporate Value Chain (scope 3) standard with detailed additional guidance for each asset class. Using the PCAF methodology, Coop Bank assesses financed emissions across seven asset classes: sovereign bonds (from 2025), listed equity and corporate bonds (from 2025), leases, business loans, commercial real estate, renewable energy projects, and residential real estate. For the asset classes, sovereign bonds and listed equity and corporate bonds, we have assessed 100% of the assets in these classes in accordance with the PCAF methodology. The assessed volume primarily depends on data availability and quality, which means it is not possible to assess all asset classes at 100% coverage.

A PCAF data quality score of 1 represents an estimate with the most accurate data quality, and a score of 5 represents an estimate with the lowest data quality. When evaluating the impact of the Group's portfolio in 2021, methodologies corresponding to scores 4 and 5 were used, depending on the availability of data. In assessing the impact of the loan portfolio in 2022, the data quality score was improved, and the new average score was 3.7. In 2023, the new average score was 3.2 and in 2024, 3.1. In 2025, the data quality score was 3.5.

Financed emissions by asset class

The loan portfolio is assessed on the principle of financial control, and leases are assessed on the principle of operational control. For the sovereign bonds asset class, Scope 1 has been assessed both including and excluding the LULUCF sector (Land Use, Land-Use Change, and Forestry). For the asset classes leases, renewable energy projects, commercial real estate, and residential real estate, Scopes 1 and 2 have been assessed. For listed equity and corporate bonds as well as business loans, all three scopes have been assessed. Within the residential real estate asset class, in addition to the purchase and refinancing of residential property, construction and renovation have also been considered, which under the standard may be assessed as zero emissions. As a result, the emissions for this asset class may be considered overstated, since construction and renovation emissions are in our case attributed to the Bank.

Based on the GHG Protocol, leases are classified in the scope 3 category of "leased assets", therefore the impact of leases is typically not included as part of the Group's loan portfolio climate impact. Since the impact of leasing has been significant among all the Group's emissions, the impact resulting from leasing was included in the table for comparison with other asset classes. Regarding leasing, we support reuse, for instance, the majority of our car leasing sales in 2025 were second-hand cars (78% in 2025 compared to ca 81% in 2024).

Asset class	Outstanding amount, MEUR		Scope 1+2, tCO ₂ e		Scope 3, tCO ₂ e		Emission intensity, tCO ₂ e/ MEUR		Measured % of contracts		PCAF score	
	2025	2024	2025	2024	2025	2024	2025	2024	2025	2024	2025	2024
Sovereign bonds	48.95	0	7,597	0	0	0	155	0	100	0	1	0
Sovereign bonds (+ LULUCF)	48.95	0	7,276	0	0	0	149	0	100	0	1	0
Listed equity and corporate bonds	14.24	0	47	0	438	0	34	0	100	0	4	0
Leasing	166.88	175.39	25,544	33,183	0	0	153	189	99.89	100	1	1.69
Business loans	968.58	250.97	47,091	21,941	81,887	110,953	133	530	80.17	98.9	4	4.00
Renewable energy projects (avoided emissions)	46.6	49.8	92,975	73,907	0	0	1,995	1,484	99.5	94.1	2.9	2.87
Commercial real estate	397.59	383.64	24,645	40,603	0	0	61.98	106	97.49	100	3	3.63
Residential real estate	669.95	542.63	25,186	41,624	0	0	37.6	77	99.49	100	3	3.53

For renewable energy projects, the avoided emissions have been assessed, meaning the greenhouse gas emissions that do not occur because an environmentally friendlier solution created by the renewable energy project is used instead of a conventional alternative. Avoided emissions are not counted as a reduction in the Group's total emissions.

Renewable energy projects (avoided emissions)	Outstanding amount, MEUR		Avoided emissions, tCO ₂ e		Emission intensity, tCO ₂ e/ MEUR		Measured % of contracts, %		PCAF score	
	2025	2024	2025	2024	2025	2024	2025	2024	2025	2024
Solar	34.1	36.1	56,731	64,760	1,665.65	1,793.42	99.65	100	3	3
Wind	6.97	5.52	34,214	6,897	4,907.85	1,248.45	100	100	3	3
Bioenergy	5.61	8.2	2,029	2,029	361.17	247.9	97.71	74.67	2	2

Since 2021, we have improved the data quality score, but we still face a major challenge in enhancing the availability and quality of data for measuring the climate impact of the loan portfolio. The higher the data quality score, the more accurate and reliable the results of climate impact assessment.

We have not established a base year for the assessment of our financed emissions. This is due to the limited availability and uneven quality of data, as well as the fact that we are still refining the assessment processes, which means the results would not be comparable to a base year. In the longer term, we plan to set a base year and adopt a baseline data recalculation protocol to define the circumstances under which recalculation of financed emissions for the base year is necessary, ensuring consistency, comparability, and relevance of financed emissions data reported over time. For these reasons, the comparative figures presented in the tables are not strictly comparable with the previous year's data.

Consumers and end-users

It is important to us that vital products and services are accessible to everyone close to their homes. As an Estonian bank, we bring everyday banking services closer to people so that everyone can enjoy life wherever they want to live. For instance, cash services are available at people's local stores: Coop Pank group clients can make deposits and withdrawals from their accounts at more than 320 Coop stores around the country. We are pleased to see that more people are making use of these services all the time, as can be seen in the table below:

	2025	2024
COOP cash transactions vs ATMs (proportion of total number of transactions)	40.7%	39.5%
COOP cash transactions vs ATMs (proportion of total turnover)	37.9%	35.4%

We also serve clients at 16 branches in 13 towns, making ours one of the biggest networks of bank branches in Estonia.

Our client relationships outside of Tallinn/Harju County can be summarised as follows:

	2025	2024
Everyday banking	63.3%	63.0%
Mortgage loans	38.9%	37.8%
Business loans	36.5%	33.6%
Leasing	44.8%	44.1%

We contribute to improving the financial literacy of the Estonian population by advising people of all ages on how to make smarter choices regarding their finances via our Lihtsalt rahast ('Money Matters Put Simply') podcast and through other channels. We promote saving for retirement and its importance with Tuleva pension funds. We regularly participate in the working groups of the Estonian Banking Association, including the financial literacy working group. We also actively contribute to anti-fraud initiatives both through the Banking Association and independently to help protect the assets of Estonian residents.

The development of products and services in line with responsibility and sustainability objectives is an ongoing process. The Coop Pank group decided some time ago that it would not offer financing for:

- the organisation of gambling and betting activities;
- the manufacturing of tobacco;
- entertainment events;
- exports to countries subject to sanctions;
- aircraft, ships and railway stock;
- the weapons industry or arms trade which is not linked to Estonian national defence or NATO or
- political parties and other political organisations.

As at the end of 2025, our loan portfolio included no loans in any of these areas of activity. Nor do we offer credit services in areas or to companies whose activities are unethical or linked to corruption, violate human rights or have a significant negative impact on the environment. Customers whose activities have an environmental impact are checked in each specific case to ensure that they comply with the applicable environmental protection standards in their activities.

In the pricing of bank services, we are honest and transparent, and in the marketing of services we are guided by principles of responsibility. We observe all the requirements of the Money Laundering and Terrorist Financing Prevention Act. To get to know our clients, we ask them to provide us with detailed information and we monitor their activities, all while observing the requirements of the Personal Data Protection Act. We are guided in our protection of personal data by the principle of integrated data protection, wherein we apply data protection throughout the data-processing life cycle and use only as much data as we need to offer quality banking services.

Professional Conduct

Professional Conduct and Business Culture.

We consider our management culture to be open and modern, the basis of which is that we are guided by regulations and international standards (such as human rights, labour law and the fight against discrimination).

In our operations we are led by best practices in company management and banking, the principles of responsible lending, other guidelines issued by financial supervision authorities and valid legal acts.

The fields of the prevention of money laundering and terrorist financing and the implementation of international sanctions are important to us, and we apply the necessary due diligence measures.

We also monitor our marketing activities to ensure that they are in line with the valid norms. To guarantee ethical behaviour, we have established guidelines for reporting inappropriate behaviour, in accordance with which employees can inform of potential breaches of ethical norms or laws within the group.

We have adopted a procedure for informing of breaches and, in cooperation with a law office, ensure the maximum possible protection for employees who wish to retain their anonymity when passing on information. In our view this lays the groundwork in the best possible way for every employee to be able to inform of any breach pertaining to internal management without having to worry that doing so may affect their working relationship with the company.

To us it is only natural to offer our employees a contemporary working environment, motivating salaries, flexible hours, the option to work remotely, stimulating professional challenges, every opportunity for development and a friendly team that sticks together. We are linked by our shared values. In 2022, we started offering our employees the option of health insurance in addition to sports compensation.

Remuneration report

Coop Pank group applies a single remuneration policy that has been approved by the Supervisory Board of the bank and the effectiveness, adherence to objectives and implementation of the policy is supervised by the Remuneration Committee. In 2025, three Remuneration Committee meetings took place. The remuneration policy applies equally to all employees of the Group.

The compensation structure applicable in the Coop Pank group is comprised of two components:

- basic salary which is fixed pay agreed between the employee and employer within a contract;
- variable pay, which is an additional pay based on the employer's resolution (sales bonus, performance pay, stock option).

Sales bonuses are paid to employees based on achieving monthly or quarterly goals. Performance pay is paid out the following period to employees whose contribution led to the results achieved while adhering to the Group's objectives and values. Performance pay supports efficient risk management and does not encourage taking excessive risks. The amount of pay is determined by the extent of reaching activity goals. The basic salary and performance pay are reasonably balanced.

The following is an overview of the average gross monthly remuneration of employees for the last five years, taking into account the basic salary and monetary performance pay for the previous calendar year. For comparison, the profit before corporate income tax per employee for the respective year is presented.

In euros (rounded down to the hundred)	2021	2022	2023	2024	2025
Average monthly gross remuneration	2,800	3,000	3,400	3,600	3,900
Yearly profit before income tax per employee	47,000	63,300	110,500	83,600	75,900

As at 31.12.2025, a total of 2,731,500 options were granted to employees with a maturity date of three years starting from the moment of the issue.

In April 2022, a three-year share option program was confirmed by the shareholders, which allows the issuing of options to employees every year making up to 1% of the total number of shares of the bank. Based on the new share option program the share options issuing can take place between April 2023 and April 2025 based on the Supervisory Board's decision.

In April 2025, the General Meeting approved a new two-year share option program of the Bank for the period of 2025 – 2026, under which options for up to 1% of the Bank's shares may be issued to employees annually. Under this program, options may be issued in period between April 2025 and April 2026 in accordance the decision of the Supervisory Board.

The purpose of the share options programmes is to align long-term interests and goals of Management Board members and employees treated as such with long-term interests of the bank's shareholders. The common interests are expressed in the professional and balanced management of the Group, which ensures the sustainable development and long-term growth of the Group in accordance with the set goals and strategy. The options are issued based both on the results of the Group and results of the person entitled to participate in the option programme in the relevant year. Options can be reduced or cancelled if the employment

relationship is terminated, the person does not meet the performance criteria, the financial results of the group have significantly deteriorated or the risks of the group are not sufficiently covered by own funds.

The total amount of performance bonuses are decided by the Supervisory Board, which also determines the specific amounts of bonuses for members of the Management Board and the internal audit unit. Bonuses for other employees are decided by the Management Board. The establishment of the option programme and its conditions shall be decided by the general meeting of shareholders. The issuance of specific options is decided by the Supervisory Board on the proposal of the Remuneration Committee.

The ratio between performance pay (including value of options granted) and basic salary of the senior management and senior staff responsible for material business units and for management of specific risk categories in 2025 was:

- senior management – 38%;
- staff managing control functions – 16%.

The performance fees and options assigned to the Management Board are in accordance with the remuneration principles and are based on accomplishment of the general objectives of the Bank as well as on the accomplishment of the personal goals of each member of the Management Board. No exceptions have been made for the members of the Management Board and no extraordinary bonuses have been granted. The right to reclaim cash performance fees has not been exercised, but options have been revoked upon the departure of a member of the Management Board. The following is an overview of the five-year remuneration of the members of the Management Board, in euros.

Arko Kurtmann (since Nov 2020)	2021	2022	2023	2024	2025
